

EASTERN COMPANY (S.A.E)
STANDALONE FINANCIAL STATEMENTS
TOGETHER WITH LIMITED REVIEW REPORT
FOR THE FINANCIAL PERIOD ENDED MARCH 31, 2025

Originally Issued in Arabic

Limited Review Report

To: The Board members of Eastern Company (S.A.E)

Introduction

We have reviewed the accompanying standalone interim financial position of **Eastern Company (S.A.E)** as of March 31, 2025, and the related standalone statements of income, other comprehensive income, changes in equity and cash flows for period then ended, and a summary of significant accounting policies and other explanatory notes. Management is responsible for the preparation and fair presentation of this interim financial information in accordance with Egyptian Accounting Standards. Our responsibility is to express a conclusion on this interim financial information based on our review.

Limited review scope

we conducted our review in accordance with the Egyptian Standards on review engagements No. 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of standalone interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Egyptian Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying standalone interim financial statements do not present fairly, in all material respects, the standalone interim financial position of **Eastern Company (S.A.E)** as of March 31, 2025, and its financial performance and standalone cash flows For the Nine - months then ended in accordance with the Egyptian Accounting Standard No (30) - For preparing periodic financial statements.

Explanatory paragraph

Without qualifying our opinion:

As indicated in note No. (14), the investments at amortized cost amounted 20.66 million EGP represent 5% reserve was deducted previously according to the law (203) for the year 1991. The company management officially request from the National Investment Bank to refund the investments at amortized cost balance, and according to the General Assembly of the Advisory Opinion and Legislative Department the arrangement of the refund process is subject to issuance of a legislation.

Cairo, May 28, 2025

Auditor

Dr. Ahmed Shawki

Forvis Mazars Mostafa Shawki

2- BASIS OF PREPARING FINANCIAL STATEMENT:

2/1 Accounting Standards:

- The standalone financial statements were prepared in accordance with Egyptian accounting standards and considering the relevant Egyptian laws and regulations. The company has an associate company, which is United Company.
- The company has accounted for investments in associate companies in its financial statements in accordance with the relevant Egyptian accounting standards, which were amended in March 2024. The amendments introduced the option to apply the equity method for investments in subsidiaries, associates, and joint ventures. The company opted for early adoption of this approach, resulting in no discrepancies between its standalone and consolidated financial statements. As a result, the company issued standalone financial statements that are identical to its consolidated financial statements.

2/2 Basis of Measurement:

- The stand-alone financial statements have been prepared in accordance with the historical cost methods except for financial investments at fair value through other comprehensive income which was measured at fair value at preparation date of financial statements.
- The stand-alone financial statements are based on the company continuity.
- The stand-alone financial statements have been prepared according to the accrual basis except the cash flow which is prepared according to the cash basis.
- The cash flows statements have been prepared according to direct method.

2/3 Functional and presentation currency:

- The company's standalone financial statements presented in Thousand Egyptian Pound, while the transaction currency is the Egyptian Pound.

2/4 Use of Estimates and Judgment:

- The financial statements have been prepared in accordance with the Egyptian Accounting Standards, and this requires the use of estimates and assumptions that affect the values of assets and liabilities and the disclosure of potential liabilities, as well as on revenues and expenditures. Although these estimates are based on the best information available to management on current conditions and events, the results are they may differ from these estimates, and changes in the accounting estimate are included in the period in which this change occurred and in any future periods affected.

2/5 The information about applying the accounting policies which have a huge impact on the recorded amounts in the financial statements which is shown according to the following policies:

- ❖ Disclosure NO. (3-8) Lease contracts - Disclosure NO. (3-17) Revenue recognition.

The following are the main items that the company applied estimation and judgments:

- Estimation of the ages of fixed assets.
- Provisions.
- Deferred tax assets.
- Deferred tax liabilities.

2/6 Fair value measurement:

- The fair value for financial instruments is determined based on either the market value or similar financial instrument at the date of the financial statements without deducting any future selling costs.
- The financial assets' value is determined based on the current purchase prices of these assets, while the financial liabilities' value is determined based on the current prices which can settle these liabilities.
- In case of an active market for determining the fair value of financial instruments, fair value is estimated using different valuation methods considering recent transaction prices, guided by the fair value of other fundamentally similar instruments, the use of discounted cash flow method or any other valuation method resulting in reliable values.
- When using the discounted cash flow (DCF) method for valuation, future cash flows are estimated based on management's best estimates. The discount rate used is determined in light of the prevailing market rate at the financial statement date for financial instruments that are similar in nature and terms.

3- SIGNIFICANT ACCOUNTING POLICIES:

- The Significant Accounting Policies applied on a consistent basis throughout the presented financial periods in these financial statements.

3/1 Foreign Currencies translation:

- The company's functional and reporting currency is the Egyptian pound.
- Foreign currency transactions are recorded in the accounts based on the exchange rates prevailing in the free foreign exchange market during the financial period. Any differences arising between the exchange rate at the date of use and the rate at the date of acquisition are included in other credit accounts. The balances of foreign currencies included in monetary assets and liabilities are re-evaluated based on the exchange rates prevailing in the free foreign exchange market at the financial statement date, and the resulting exchange differences are recognized in the income statement.

3/2 Fixed Assets:

3/2/1 Initial recognition

Items of property plant and equipment are stated at cost and presented in the statement of financial position net of accumulated depreciation and accumulated impairment losses as of the reporting date.

NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE PERIOD ENDED MARCH 31, 2025
(Amounts expressed in Thousands of Egyptian Pounds unless otherwise stated)

The cost of PPE is determined by capital expenses connected directly to purchase an asset which includes the cost of the self-manufactured assets, cost of the materials and direct wages, and any other costs incurred by the company, so the fixed asset is ready to use.

3/2/2 Subsequent Measurement:

- The company recognizes the cost incurred to replace a part of a fixed asset within the book value of the asset on the date that the cost is incurred, and the book value of the replaced parts is derecognized.
- The depreciable amount of the fixed asset, which is the cost of the asset minus its residual value, is depreciated on a straight-line basis over the useful life of each type of fixed asset. Depreciation is charged to profit and loss.
- Land is not depreciated. **Below is a statement of the estimated useful life for each type of fixed asset: -**

<u>Estimated useful live</u>	<u>Estimated useful lives (year)</u>
Buildings	25-50
Machines	10
Vehicles	5-8
Tools	5
Furniture	4-10

3/3 Projects under construction:

- Projects under construction are recognized initially at cost. The cost includes all expenditure directly attributable to bringing the asset to the working conditions for its intended use. Projects under construction are transferred to the fixed assets at cost when they are completed and are available for the purpose for which they were acquired.

3/4 Investments property:

- A non-temporary decrease has been applied that will be loaded to the income statement, and real estate investments are represented in land and real estate retained to achieve rent or increase in their value or both, and real estate investments were initially measured at cost and were later measured at cost minus the combined depreciation and impairment losses, and depreciation expense and impairment losses are recorded with profits or losses.
- Investment property is depreciated according to the straight-line method, over the estimated productive life of each item of investment property. Land is not depreciated, and the useful life of properties is estimated at 2% to 3.75%.
- Profits or losses from disposing are calculated as the difference between the net proceeds from disposal of the property and the net book value which charged to income statement.

3/5 Investments in associate:

- "The company has recognized the initial investments in associate companies at cost in the independent financial statements in accordance with the relevant Egyptian accounting standards."
- "The company has recognized its share of profits in associate companies in the independent financial statements within the profits and losses according to the amendments to the Egyptian Accounting Standards applied in March 2024."
- "The company recognizes distributions of profits from its investments in associate companies when it is entitled to receive the distributions."

3/6 Investments:

3/6/1 Financial assets at fair value through other comprehensive income:

- Financial investments at fair value through comprehensive income are measured later at fair value through the statement of comprehensive income. Interest income is calculated at amortized cost using the effective interest method, and foreign exchange gains and losses are included in profit or loss. Upon exclusion, the accumulated profits, and losses in the statement of comprehensive income are reclassified as profit and losses.

3/6/2 financial assets at amortized cost:

- Investments in government bonds are valued at acquisition cost and the return on these investments is recognized under the income from investment item in the income statement.

3/6/3 Financial assets at fair value through profits and losses:

- Treasury bills are measured at cost through profits and losses, and investment funds are measured at fair value through profits and losses.

3/7 Other assets:

- The other assets are represented in the licenses cost which is expected to generate future economic benefits for the company and the company contribute to establishment of non-owned assets to serve its purposes.
- The other assets are recognized initially at cost after deduction amortization. The cost includes all expenditure directly attributable to bringing the asset to the working conditions for its intended use.
- The amortization percentage for the non-owned assets is 10%, H.R program amortization 25%, and Microsoft program amortization 25%.

3/8 Lease contracts:

1- Determine whether the arrangement contains a lease contract or not.

- At the inception of an arrangement, the company determines whether the arrangement is or contains a lease.
- At the commencement or upon reassessment of any arrangement that includes a lease, the company separates the payments and other consideration required by the arrangement into those related to the lease and those related to other elements based on their relative fair values.
- If the company concludes that it is a finance lease and that it is not possible to reliably separate the payments, the asset and the liability are recognized at an amount equal to the fair value of the leased asset. Subsequently, the liability is reduced as payments are made, and a finance cost is recognized on the liability using the company's incremental borrowing rate.

2- Leased assets:

- Lease contracts for property, plant and equipment that transfer to significant degree to the company all the risks and rewards associated with ownership are classified as financial lease contracts the leased assets are initially measured at an amount equal the fair of the fair value and present value of the minimum lease payments, whichever is less after the initial recognition, the assets are accounted for in accordance with the accounting policy applied to that asset.
- Assets held under other lease contracts are classified as operating lease contracts and are not recognized.

3- Lease payments:

- Payments made under operating leases are recognized in profit or loss on straight line basis recognized as an integral part of over the term of the lease.
- Lease incentives received are total leasing expenses, over the term of the lease the minimum rental payments made under financial lease contracts are divided between financing expense and

NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE PERIOD ENDED MARCH 31, 2025
(Amounts expressed in Thousands of Egyptian Pounds unless otherwise stated)

reducing outstanding obligations, Financing expenses are charged for each period during the lease, to reach a fixed periodic interest rate on the remaining balance of the obligation.

3/9 Inventory:

- Inventory of raw materials and production inputs is valued at cost, with the cost of goods sold being assessed based on the weighted average cost method. Inventory of work-in-progress is valued at cost up to the last stage of production, while finished goods inventory is valued at the lower of cost or net realizable value.
- The company follows a perpetual inventory system for recording items and their usage in operations, while a periodic inventory method is used to account for the ending inventory of both finished and work-in-progress items.
- The inventory of raw tobacco is sufficient for approximately 11,3 months.
- The finished goods inventory is adequate to meet market needs for about 14 days.
- The inventory of raw tobacco in customs warehouses is approximately 13,576 million Egyptian pounds. Customs duties on this inventory are settled upon receipt from these warehouses.

3/10 Cash on hand and at banks:

- Cash and cash equivalents are comprised of cash on hands, at banks and time deposits with maturity of three months or less.

3/11 Provisions:

- Provisions are recognized when there is an existing or inferred liability as a result of an event in the past and is expected to require an influx of economic benefits that are used to pay that obligation and a reliable estimate of the amount of this obligation can be made and the balance of the provisions on the balance sheet date is reviewed and adjusted when necessary to show the best current estimate of it.

3/12 Capital:

- Paid up and issued capital represents the nominal value per share multiplied by the number of shares as of financial statements date.

3/13 Employees benefits:

a. current employee benefits:

The short-term employee benefits are recognized as expense when providing the related service, the expected payment is recognized as a liability when the Company has a legal or implicit obligation to pay this amount against a service which has been provided by the employee and the obligation can be reliably measured.

b. Defined subscription benefits:

The obligations of defined subscription benefits systems are recognized as an expense when the related service is provided. Prepaid contributions are recognized as an asset to the extent that the advance payment leads to a reduction in future payments or a cash refund. The company contributes to the government social insurance system for the benefit of its employees in accordance with the Social Insurance Law. Under this law, employees and employers contribute to the system with a fixed percentage of wages, limited to the company's commitment to the value of its contribution, and the company's contributions are charged with profits or losses according to the accrual basis.

c. Employee end of service benefits:

The company recognizes termination benefits as an expense on one of the following two dates, whichever comes first, when the company can no longer cancel the offer of those benefits or when the company recognizes restructuring costs, and when it is not expected that the benefits will be settled in full within

NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE PERIOD ENDED MARCH 31, 2025
(Amounts expressed in Thousands of Egyptian Pounds unless otherwise stated)

12 months. Reviewed after the date of preparation of the financial statements, they must be discounted at a discount rate - before taxes to reflect the time value of money.

3/14 Reserves:

- The company's reserves are formed either by law or by the company's bylaws in order to strengthen the company's financial position. The reserve is used by the decision of the General Assembly based on the proposal of the Board of Directors regarding what is most in the company's interests.

3/15 Buy back shares or reissue ordinary shares (Treasury Stock):

- When repurchasing issued capital shares, the amount paid for the repurchase, including all direct costs related to the buyback, is recognized as a reduction in equity. Repurchased shares are classified as treasury shares and are presented on the balance sheet as a deduction from equity. Upon the sale of treasury shares, the proceeds are recognized as an increase in retained earnings. The company committed to the law in its buying, selling and disposal according to law no. (159) year 1981.

3/16 Borrowing Cost:

- Borrowing costs are initially recognized upon receipt of the loans or credit facilities, the current portion are classified as the current liabilities unless the company has the right to reschedule the payment of loans for more than one year after the date of the financial position which will be classified as long-term loan in the long-term liabilities.

3/17 Revenue:

a. The Egyptian accounting standard no. (48)-Revenue from contracts with customers:

- The Egyptian Accounting Standard No. (48) Revenue from contracts with clients has been applied which replaced the accounting standards no. (11) and no. (8)
- Revenue recognition:

Revenue is recognized based on Five-step model as defined in the Egyptian accounting standard No. (48) as follows:

- **Step (1):** identify contract(s) with customers. A contract is defined as an agreement between two or more parties that creates enforceable rights and obligations and specifies the criteria that must be fulfilled in each contract.
- **Step (2):** identify performance obligations in the contract. Performance obligation is a promise in a contract with a customer to transfer to the customer either good or service.
- **Step (3):** Determine the transaction, Price.
The transaction price is the amount of consideration to which an entity expects to be entitled in exchange for transferring promised goods or services to a customer, excluding amounts collected on behalf of third parties.
- **Step (4):** Allocation of transaction price to its performance obligations in the contract for the contracts which have more than performance obligation. The company will allocate the transaction price to each performance obligation to a specific amount in exchange for the contract that the company expects to obtain in exchange for fulfilling each performance obligation.
- **Step (5):** Recognize revenues when the company satisfies the performance obligations.
- **Credit Interest Revenue:**
 - Credit Interests revenue is recognized using the effective interest rate, the revenue of credit interest is recorded in the income statement.

NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE PERIOD ENDED MARCH 31, 2025
(Amounts expressed in Thousands of Egyptian Pounds unless otherwise stated)

3/18 Income tax:

- The income tax on the profit for the period comprises income tax for the period and deferred tax, and it should be recognized in the income statement, the income tax on the net profit is recognized by using the current tax price rate as of the financial statements date.
- Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realized, based on tax rates and tax laws that have been enacted by the balance sheet date. In addition to the tax differences from prior periods.
- Deferred tax assets are recognized for the entity when there is a proven probability to achieving profit subject to tax in the future, and can get a right of this asset, and the value of the deferred tax assets is reduced by the value of the part from which the expected tax benefit is achieved during the following periods.

3/19 Accounting for grants and subsidies:

- The company recognized revenue from the export subsidy (grants and subsidies) in income statements and the donated assets recorded as grants in the fixed assets item and charged the depreciation related to income statement.

3/20 Dividends:

Dividends are recognized as Liability in the financial period in which they are declared after the approval by the company's General Assembly.

3/21 Company profit from sale investments:

Gains from sale of financial investments are recognized immediately upon receipt of evidence of the transfer of ownership to the buyer, based on the difference between the sale price and their book value on the date of sale.

3/22 Investment income:

- Revenues are generated when the company collects dividends from investments when the dividends are approved by the general share of the companies invested.

3/23 Employees' share profits:

- Employees' profits share should be paid without exceeding their total annual basic salaries in accordance with the law.

3/24 Contingent liabilities:

<u>Company contingent liabilities</u>	<u>Amounts in Thousands of Egyptian Pounds</u>
letters of guarantee relevant to Cairo and Alexandria customs	1 290 875
Letter of credits	11 114 850
Total	12 405 725

4- FINANCIAL RISK MANAGEMENT

4/1 Credit Risk:

- The financial instruments risk represents the inability to pay due to liquidity issues of debtors with credit terms and cash and deposit at banks except for cash at safe and financial deposits in case that liquidity is not available to the other party, and therefore its inability to pay these balances and fulfill its agreed obligations. The company management to control credit risk deals with reputable financial institutions with high credit and stable ratings.

4/2 Liquidity Risk:

- The liquidity risk is the risk that when the company cannot settle its liabilities or financial commitments on due dates, the Company's approach regarding managing liquidity is to ensure that it has a sufficient liquidity to meet its liabilities on its due dates in both normal and critical circumstances without incurring unacceptable losses or damaging the Company's reputation, the company also ensures the cash is available on request to meet the expected operating expenses for an appropriate period of time including the financial obligations and disposal the potential impact of acute and unpredictable conditions such as natural disasters.
The company also invests surplus cash — available from daily cash collections — in the best short-term investment opportunities.

4/3 Market Risk:

- Market risk is represented in the changes in the market prices such as foreign exchange currencies and interest rates.
- The purpose of managing market risk is managing and controlling the market risk exposure within the acceptable parameters with maximizing revenue.

(A) The Foreign currencies Risk :

Foreign currency risk arises from fluctuations in foreign exchange rates, which affect payments and obligations denominated in foreign currencies, as well as the valuation of assets and liabilities in foreign currencies. This type of risk is managed by the company through various policies, including, for example, sourcing from local manufacturers to obtain equipment and machinery for production, consulting, and procurement through agents and suppliers, etc.

The Foreign currencies balance as of March 31, 2025: (In thousands)

	<u>Assets</u>	<u>Liabilities</u>	<u>Net value</u>
Dollars	(4 813)	(196 705)	(201 518)
Euro	248	20 682	(20 434)
Sterling pound	15	405	(390)
Swiss Franc	3	0	3

(B) Interest rate risk:

- The Company deals with various banks with interest rates that enable it to reduce the risk of changes in interest rates whether debit interest or credit interest through competition among banks to get the best rates based on the large business size.
- Interest-bearing bank deposits during the financial period referred to as the total deposits in local and foreign currencies.
- The fair values for financial instruments are not materially different from their carrying values at the end of the financial period.

4/4 Capital Management:

- The company's policy is to maintain a strong capital base in order to maintain shareholders creditors and market confidence and to support future development.
- The company's management's goal in managing capital is to maintain the company's ability to continue in a way that achieves a return for shareholders and provides benefits to other parties to gain market confidence and support future development.
- The company's management also aims to maintain the best capital structure, which leads to reduced capital costs.
- Management monitors the return on capital to maintain the best capital structure also The Board of Directors also monitors the level of shareholder distributions.

NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE PERIOD ENDED MARCH 31, 2025
(Amounts expressed in Thousands of Egyptian Pounds unless otherwise stated)

- The Board of Directors also monitors the level of shareholder distributions. The company's management monitors the capital structure using the ratio of net liabilities to total capital. Net liabilities represent the total current and non-current liabilities minus cash and cash equivalents, and the total capital represents the total equity of the company as shown in the company's independent financial position in addition to the net liabilities:

	<u>31/03/2025</u>	<u>30/06/2024</u>
Total Liabilities	28 984 039	16 695 800
Deduct: Cash and cash equivalent	(830 647)	(5 902 490)
Net Debt	28 153 392	10 793 310
Total Owner's Equity	14 006 579	16 169 116
Net Debt to Equity Ratio	2.01	0.67

5- RELATED PARTIES DISCLOSURE:

- Global Investment Holding Company owns 30% and the Chemical Industries Holding Company owns 20.95% of the company's shares as of Mar 31, 2025.
- Related parties are treated on the same basis as third parties.
- The company during the period 1/7/2024 till 31/03/2025 has incurred salaries, allowances, and bonuses for members of the high management and the company's board of directors.

6- FINANCIAL INSTRUMENTS:

- The company applied the Egyptian Accounting Standard No. (47) financial instruments and considering the way of applying the change in the accounting policies chosen by the company in applying this standard, the differences resulting from the application of this standard referred to "if any" within the Retained earnings and the comparative information included in these financial statements was not modified to reflect the requirements of the new standards.

6/1 Accounting standard No. (47) - Financial instruments:

Standard No. (47) contains the main classifications to financial assets:

- Measurement at amortized cost -Fair value through comprehensive income -Fair value through profits and losses ,And the classification of the financial assets under accounting standard no. (47) is based on the business model in which the financial assets management and the characteristics of the contractual cash flow take place.
- The Egyptian accounting standard no. (47) omits the previous items of the Egyptian accounting standard no. (26) from investments held to maturity, loans and receivables and available- for -sale financial assets.
- The Egyptian accounting standard no. (47) Keeps to a large extent the current requirements in the standard no. (26) for measurement and classification the financial liabilities.
- The application of the Egyptian accounting standards no. (47) doesn't have a significant effect on the accounting policies related to the financial liabilities and derivative financial assets.

6/2 Impairment of financial assets:

- Egyptian Accounting Standard No. (47) replaces the "incurred loss" model in Egyptian Accounting Standard No. (26) with the "expected credit loss" ECL model. The new impairment model is applied to financial assets measured at amortized cost, contractual assets and investments in debt instruments measured at fair value through Other comprehensive income, but not on investments in equity

NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE PERIOD ENDED MARCH 31, 2025
(Amounts expressed in Thousands of Egyptian Pounds unless otherwise stated)

instruments under Egyptian Accounting Standard No. (47), credit losses are recognized earlier than in Egyptian Accounting Standard No. (26), for assets that fall within the scope of the impairment model contained in Egyptian Accounting Standard No. (47) It is expected that impairment losses will increase in general and become more volatile.

- The Company measures the impairment loss to financial management at the amount of the credit loss path expected over the lifetime if the credit risk on that financial department has increased significantly since initial recognition.
- If at the reporting date on a financial instrument the credit risk has not increased significantly since initial recognition, the company must measure the impairment loss for that financial instrument at an amount equal to the 12 months expected credit losses.
- If the company had measured the impairment loss for a financial instrument at an amount equal to the expected credit losses over its life in the previous reporting period, but decided at the financial reporting date that it was no longer met, then the company measures the impairment loss at an amount equal to the expected credit losses over a period of 12 months from the date of the financial instrument.
- The company records the amount of credit losses to a gain or loss in profit and loss, which is required to adjust the impairment loss at the reporting date to the amount that must be recognized in accordance with Standard (47) as a gain or impairment loss.

6/3 Expected credit losses measurement.

- It is a probability-weighted estimate of credit losses: the present value of all cash shortfalls was measured (the difference between the cash flows due to the entity in accordance with the contract and cash flows that the company expects to be received).
- Expected credit losses are discounted at the effective interest rate of the financial asset.

6/4 Expected credit losses provision presentation.

- Impairment losses for financial assets measured at amortized cost were deducted from the total amount of the assets' book value, either for securities in debt securities that were measured at fair value through other comprehensive income, the impairment losses were charged to profits or losses and recognized in other comprehensive income.

6/5 Contingent assets

The potential assets represent the compensation values issued in favor of the company according to the following statement:

	<u>Value (in millions)</u>
A judgment was issued in Case No. 9869 of 1994 (total civil) Cairo appeals to compensate the company, and that was during the 10/5/2017 hearing and until this date, the judgment has not been implemented. And the implementation procedures are underway in cooperation with the governor of Cairo.	12
A judgment was issued in Case No. 3650 for the year 2000 Civilians, all of Giza, on December 25, 2019, and to date, the judgment has not been implemented, and the implementation procedures are underway in cooperation with the governor of Giza.	42

- * The General Assembly held on October 25, 2020 decided to Waiver the company's land in the city of Al-Arish to a sovereign side due to the expiry of the license and the impossibility of using it under the security conditions in the region.
- * The historical cost of assets excluding active and non-classified use assets held for sale is 21 187 thousand pounds with a net book value of approximately 12 880 thousand pounds consisting of two factories menouf and Muharram Bek due to its discontinuation in 2021.

The Ordinary General Assembly of the Eastern Company was held on 7/24/2024 to approve the sale of plots of land buildings and equipment used in the manufacture of the company's products in the industrial complex in the city of October called Factory No. (9) and to authorize the conclusion of compensation and extraordinary contracts to correct the material error in Article No. (7) of the company's articles of association regarding the number of shares.

The procedures for the sale of factory (9) were completed on 1/10/2024.

NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE PERIOD ENDED March 31, 2025
(Amounts expressed in Thousands of Egyptian Pounds unless otherwise stated)

Financial Leasing:

- The Decree of Minister of Investment and International Cooperation No. (69) of 2019 was issued to modify some provisions of the Egyptian Accounting Standards which issued by the Minister of Investment Decree No. 110 of 2015 by replacing the Financial Leasing Standard no. 20 (old one) by a new one numbered (49) covering the Financial Leasing Contracts.
- The financial leasing contracts were treated by the Egyptian Accounting Standard no. (49) according to the Amended Accounting Standards for the year of 2019 This amended standard applied for the leasing contracts which were under the finance leasing law no. 95 for the year of 1995 and its amendments these contracts were treated by the Egyptian Accounting Standard no. (20) which was stating that "the accounting rules and standards related to process of the finance leasing" and the finance leasing contracts which established under the law of organizing the finance leasing and the factoring activities no. 176 for the year of 2018 starting from the beginning of the annual report time period which in the law no. 95 for 1995 was canceled and instead of the law no. (176) for 2018 was issued.
- ❖ A contract was signed with QNB Al-Ahly Company for Financial Leasing to sell and rent some machines with total cost of (398 324 153 Egyptian Pounds) by changing interest rate (average price of corridor + 1.2%) on 28/6/2012 for 6 years in addition to two years as an extra year after that time period the total rental amount should be paid for 72 months.
- ❖ The ownership of these machines will devote to the company at the end of the contract with a memorial amount of 1 L.E.
- ❖ The last installment of the lease value of the financial leasing contract was paid with QNB Al-Ahly Financial Leasing Company on 28/06/2020.

NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE PERIOD ENDED March 31, 2025
(Amounts expressed in Thousands of Egyptian Pounds unless otherwise stated)

- Al-Zumar and Al-Man Esterly sites have been reclassified to investments property according to the approval of Board of Directors meeting no. (16) for 2020, held on September 6, 2020, based on the memorandum presented on September 2, 2020 to convert all the assets of Al-Zumar site as well as the Man Esterly site from fixed assets to investments property it was also approved to convert Naiza factory site to investment property.
- The land owned by the company located at 41 Abu Darda Street, Laban Division, Alexandria Governorate, was announced for sale by public bidding in the closed envelopes system on Thursday, January 30, 2020, with a total value approximately 51 743 thousand pounds, where the payments will be as follows: -
 - Receiving the guaranteed payment amounted to 500 thousand pounds to the company's treasury after the audition has been awarded.
 - The remaining 25% of the guaranteed value must be paid within fifteen days from the date of notification of the award.
 - 25% of the sale value should be paid within 3 months from the date of notification of the award.
 - The remaining 50% should be paid for in 12 installments over three years, considering adding an interest equal to the declared lending interest of the central bank as a compensatory interest.
 - The preliminary sales contract will be released upon paying 50% of the total sale value, in addition to that the land still belongs to the company's properties.
- ❖ the dues of that partner after the approval of the Board of Directors of session No. 12 for the year 2020 on June 25, 2020. To date, however, only 14 049 million pounds of land value has been paid without the rest of the partners completing the 50% of the sale value and are committed to paying it within 3 months of the date of notification of the gearing until the sale contract is released and the procedures are completed.
- ❖ On October 16, 2023, the company confiscated the amounts paid by the bidder, considering the contract automatically terminated, due to the bidder's continued failure to pay the sale price and the payments included in the payment program in accordance with the terms of the bid.

11- Investment in Associates

- Investments in associate represent 24% of the United Company, as the Eastern Company has significant influence over the United Company, as the Eastern Company is represented in the United Company's capital.

The company has recognized its share of profits from associate companies within the profit and loss for the period. Dividend distributions are recognized when the company obtains the right to receive these distributions.

Total	3 000 000 000

- ❖ The Extraordinary General Assembly held on 29/05/2018 decided to increase the company's issued and paid-up capital from EGP 1.5 billion to EGP 2.25 billion (an increase of EGP 750 million), distributed over 450 million shares with a nominal value of EGP 5 per share, funded from the legal reserve and other reserves shown in the financial statements for the fiscal year ended 30/06/2017. The Listing Committee approved this increase on 01/08/2018.
- ❖ The nominal value of the Eastern Company's share was split at a ratio of 1:5, making the new nominal value EGP 1 instead of EGP 5, while the company's capital remained at EGP 2.25 billion, now distributed over 2.25 billion shares. Necessary approvals from relevant authorities were obtained based on the Extraordinary General Assembly decisions of Eastern Company held on 29/08/2018.
- ❖ The Employees Shareholders Association of Eastern Company sold 22.1 million shares of Eastern Company, reducing its holding to 116,035,692 shares, representing a 5.21% stake, to meet obligations related to voluntary exits.
- ❖ The Board of Directors, in its meeting on 19/03/2020, decided to buy back treasury shares up to a maximum of 3% of the company's outstanding shares on the stock exchange, with purchases to occur from 23/03/2020 to 22/04/2020, notifying major shareholders to refrain from transactions during this period. The board decided to engage CI Capital and EFG in this process.
- ❖ The Board of Directors, in its meeting on 23/04/2020, approved continuing the treasury share buyback from 28/04/2020 to 27/07/2020 to complete the mentioned 3% target. The Board extended this on 28/07/2020 to allow purchases from 29/07/2020 to 28/10/2020, and again on 24/11/2020 to allow purchases from 25/11/2020 to 24/02/2021 to complete the total amount. As of 30/11/2020, 52,303,418 shares had been bought, representing 2.324% of the company's shares.
- ❖ The number of treasury shares held for more than a year without being sold amounted to 16,372,710 shares that the company could not sell during the notification period ending on 14/09/2021. As of 01/11/2021, 32,303,418 treasury shares had been sold.
- ❖ The Extraordinary General Assembly on 11/11/2021 approved by majority vote to cancel 20 million treasury shares at their nominal value of EGP 20 million, reducing the issued capital to EGP 2,230 million, distributed over 2,230 million shares instead of 2,250 million shares. Articles 6 and 7 of the

NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE PERIOD ENDED March 31, 2025
(Amounts expressed in Thousands of Egyptian Pounds unless otherwise stated)

company's bylaws were amended accordingly. Additionally, the majority approved amending Article 22 of the bylaws to include cumulative voting for electing board members.

- ❖ On 16/8/2022 the regulatory authority approved reducing the paid-up capital
- ❖ On 3/9/2023, an agreement was signed to acquire 30% of the total shares of the Eastern Company (Eastern Company) for the benefit of the Emirati company "Global Investment Holding Limited".
- ❖ Under this agreement, Global Investment Holding Company acquires Ltd. acquired 30% of the total shares of the Eastern Company (Eastern Company) in the amount of 625 million US dollars, equivalent to 19,336,625,000 Egyptian pounds (nineteen billion, three hundred and thirty-six million, six hundred and twenty-five thousand Egyptian pounds), with the buyer by providing an amount of \$150 million
- ❖ Under this agreement, the Chemical Industries Holding Company retains a 20.95% stake in Eastern Company, a strategic firm that contributes to the development of the industry, ensures market stability, and safeguards workers' rights.
- ❖ Under this agreement, there is no effect. On the Eastern Company's 24% share in the United Tobacco Company.
- ❖ The Global Investment Holding Limited deal was executed on 16/11/ 2023.
- ❖ The Ordinary General Assembly held on 4/3/2024 decided the following:
 1. Approval was given to increase the issued capital from EGP 2.230 billion to EGP 3 billion by using EGP 770 million from the statutory reserve (due to its purpose being nullified) for the benefit of existing shareholders at the nominal value per share. Approval was also given to increase the authorized capital from EGP 3 billion to EGP 15 billion. The Board of Directors has mandated implementing this within 60 days of the date of the Extraordinary General Assembly's decision.
 2. Approval was given to amend Articles 6 and 7 of the company's bylaws.
 3. Approval was given to authorize the Board of Directors to take necessary measures to increase the issued capital within the limits of the authorized capital to cover any potential obligations to banks issuing guarantee letters as specified in the facilities agreements, up to USD 200 million, within 24 months from the date of registering the authorized capital increase in the company's commercial registry or by the end of the 22nd month from the date of issuing the guarantee letter(s) by the UAE bank(s), whichever is sooner. This increase will be in Egyptian pounds equivalent to no more than USD 200 million, calculated based on the exchange rate announced by the Central Bank of Egypt on the subscription opening date, with the subscription paid in USD. The purpose of this increase is to cover any liabilities owed by the company to UAE banks issuing the guaranteed letters, valued at USD 200 million, for the benefit of Egyptian public banks granting credit facilities of USD 400 million to the company in case of cashing any part of the mentioned guaranteed letters.
 4. It was approved that the decisions of this Extraordinary General Assembly will not be canceled or amended, as they are issued to ensure the company's operational continuity, increase production rates to meet local market demands, and address the negative impacts of insufficient banking credit facilities to open documentary credits needed for the economic operation of the company's production capacity. This situation led to the growth of the parallel market and a decrease in the company's financial returns and sovereign revenues resulting from its activities.
- ❖ The increase in capital was approved by the Financial Regulatory Authority on 25/03/2024, and the increase was registered in the commercial registry on 15/04/2024. The capital was raised to EGP 3 billion during the period of registration in the commercial registry.
- ❖ On 22/05/2024, Global Investments Holding Limited, which owns 30% of the capital of the Eastern Company "Eastern Company" and is 100% owned by UK Egypt Investments Holding Limited (a British

NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE PERIOD ENDED March 31, 2025
(Amounts expressed in Thousands of Egyptian Pounds unless otherwise stated)

company), which was 100% owned by Ruby Ventures S.P.C., a UAE company, changed ownership. UK Egypt Investments Holding Limited became 51% owned by Ruby Ventures S.P.C., the UAE company, and 49% by Philip Morris Products S.A., a Swiss company.

- ❖ As a result, Philip Morris indirectly owns a 14.7% minority stake in the Eastern Company "Eastern Company".
- ❖ The Eastern Company "Eastern Company" signed an exclusive letter of intent with Philip Morris International to explore potential strategic areas for long-term cooperation in technology, manufacturing, and innovation, including heated tobacco products, in preparation for transitioning to a smoke-free future in Egypt.

26- DEFERRED TAX

	<u>31/03/2025</u>	<u>30/06/2024</u>
Deferred tax liabilities	(436 611)	(537 635)
Deferred tax assets	610 478	141 008
Net tax liabilities	<u>173 867</u>	<u>(396 627)</u>

- The deferred tax which result from temporary time differences between book value for assets and liabilities according to the account basic and its value according to the tax basic are recognized, the amount of deferred tax was determined according to what expected to achieve or settle values of assets and liabilities by using current tax price on the financial statements date, the deferred tax assets will be recognized when having a strong probability to achieve profits that may be taxed in the future where the assets can be used and the value of deferred tax assets can be decreased by the value of the part which will not achieve any tax benefits through the future years.
- Clearing was performed between the deferred tax assets and deferred tax liabilities.

27- EMPLOYEE BENEFITS

- The total liabilities for end-of-service benefits amounted to EGP 379 471 thousand for all permanent employees of the company as of 31/03/2025, according to the valuation provided by the actuarial expert hired by the company.
- The estimated value of end-of-service benefits for employees who left during the financial year 2024/2025, amounting to EGP 40 077 thousand, has been separated and included in current liabilities.
- The company has consulted with the actuarial expert, Mrs. Marwa Hisham Salah El Din Zaki – a member of the American Academy of Actuaries, to update the end-of-service benefit liabilities. The actuarial study concluded that:

NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE PERIOD ENDED March 31, 2025
(Amounts expressed in Thousands of Egyptian Pounds unless otherwise stated)

- The company pays an end-of-service bonus to employees in the event of termination of their service, whereby the employee is paid a grant of two months' salary for each actual year he spent working for the company, calculated based on the last basic salary on the date of termination of service, with a maximum of 200 thousand Egyptian pounds. This grant is due at the end of the employee service for one of the following reasons:
 - 1- Reaching the legal age of retirement.
 - 1- Early retirement cases for those who are over 55 years old.
 - 2- Partial or total service disability.
 - 3- Case of death during service.

The company will finance the amount of the grant due completely, at the employee end of service.

- The company's data was reviewed by the actuarial expert to ensure the reasonableness and consistency of the data, based on which actuarial study was conducted, in order to ensure that:
 - The absence of any fields that do not contain data or are illogical.
 - The reasonableness of the dates of birth and dates of employment by ensuring that the age of the worker at the time of employment and upon evaluation is limited to the age limits accepted by Labor Law.
 - The reasonableness of salaries values.

The guidelines and requirements of the study performed according to Egyptian Accounting Standard No. (38) employee benefits, where unbiased actuarial assumptions were used that are consistent with the experience of the Egyptian market, considering the company's actual experience and what is expected in the future.

- **The method used for estimation:**

The Projected unit credit method was used to calculate the following main items:

- Defined benefit obligation, which is the present value of the expected future payments required to settle the obligation resulting from the employee's service in the current and prior periods.
- The current service cost is the increase in the present value of the defined benefit obligations resulting from the employee's service in the current period.
- The interest cost of the obligation is the increase during the year to the present value of the obligation because of the approaching settlement period.

Actuarial assumptions used in the estimation:

The study was conducted using the following actuarial bases:

- 1- **Mortality Table Used:** The Double Decrement Table was used, where 120% of the A49/52 mortality table was applied to represent the probabilities of death and disability. A uniform resignation rate of 1.55% was used to represent the probabilities of resignation and contract termination.
- 2- **Discount Rate Used:** 15% per annum.
- 3- **Salary Escalation Rate:** 16%.

NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE PERIOD ENDED March 31, 2025
(Amounts expressed in Thousands of Egyptian Pounds unless otherwise stated)

48- SIGNIFICANT EVENT

Central Bank of Egypt Decisions

The Central Bank of Egypt, in its session held on October 27, 2022, announced the implementation of a flexible exchange rate system for pricing foreign currency, where the buying and selling prices of currencies in Egyptian pounds are determined based on supply and demand conditions. Consequently, the exchange rate of the US dollar increased against the Egyptian pound, with the closing rate reaching EGP 50.6291 on March 31, 2025.

In this context, and in continuation of the tight monetary policy pursued by the Central Bank of Egypt, the Monetary Policy Committee of the Central Bank of Egypt decided, in its meeting held on Thursday, April 17, 2025, to reduce the overnight deposit and lending rates as well as the Central Bank's main operation rate by 225 basis points, bringing them to:25%,26%, and 25.50%, respectively. Additionally, the committee decided to reduce the discount and credit rate by 225 basis points, bringing it to 25.50%.

- On 31/10/2024 a deal was executed through the mechanism of large-sized deals on the company's shares for 9 000 000 shares amounted 225 000 000 Egyptian pounds.
- On 4/11/2024 a deal was executed through the mechanism of large-sized deals on the company's shares for 20 000 000 shares amounted 500 000 000 Egyptian pounds.
- On 11/11/2024 a deal was executed through the mechanism of large-sized deals on the company's shares for 35 000 000 shares amounted 875 000 000 Egyptian pounds.
- On 13/11/2024 a deal was executed through the mechanism of large-sized deals on the company's shares for 34 728 761 shares amounted 868 219 025 Egyptian pounds.

New Issues and Amendments to Egyptian Accounting Standards

On March 6, 2024, Prime Ministerial Decree No. (636) of 2024 was issued to amend some provisions of the Egyptian Accounting Standards. The following is a summary of the most important of these amendments:

Application date	Potential impact on the financial statements	Summary of the most important amendments	New or reissued standards
It applies to financial periods beginning on or after January 1, 2024, retrospectively, with the cumulative effect of applying the revaluation model initially being recognized by adding it to the revaluation surplus account alongside equity at the beginning of the financial	The management is currently considering the possibility of changing the accounting policy in use and adopting the fair value model option provided by the standard. They are evaluating the impact on the financial statements if this option is adopted.	The standards have been reissued in 2024, resulting in amendments to paragraphs 58- "8" and "26", and the addition of paragraphs from "19A" to "19C", as well as paragraphs "57A" and "57B", and Appendix "D", addressing difficulties in currency exchange between two currencies. Entities are required to apply these amendments from the beginning of annual reporting periods that start on or after January 1, 2024. Early application is permitted, and if an	Standard No. 13 Amended 2024 "Effects of Changes in Foreign Exchange Rates":

Application date	Potential impact on the financial statements	Summary of the most important amendments	New or reissued standards
The application begins on or after the first of January 2025, and allows early application, and if the facility makes early application, this must be disclosed.	Management is currently studying the possibility of changing the accounting policy followed and using the fair value model option provided in the standard and is evaluating the impact on the financial statements in the event of using this option.	Tradable financial instruments representing a counterparty to greenhouse gas emission reduction units where each "unit" represents a tone of carbon dioxide equivalent emissions and is issued in favor of the emission reduction project developer (owner/non-owner) after approval and verification according to internationally recognized greenhouse gas emission reduction standards and methodologies carried out by verification and validation bodies whether local or international restricted to the list prepared by the authority for this purpose.	"Interpretation of Number (2) 2024"

On October 23, 2024, Prime Ministerial Decree No. 3527 of 2024 was issued to add a new standard No. (51) Financial Statements in Hyperinflationary Economies to the Egyptian Accounting Standards. This standard requires companies operating in economies facing hyperinflation to adjust their financial statements to reflect the current purchasing power of the functional currency. This standard must be applied when it is officially recognized that the Egyptian economy or the operating economy of the facility is suffering from hyperinflation. This usually occurs when cumulative inflation rates over three years reach or exceed 100%, although other qualitative factors may also be considered.
